

BVI update: Hurricane Irma

September 2017

We are incredibly pleased and relieved to let you know that all of our BVI employees are now safe following Hurricane Irma.

We now have BVI lawyers based in three different time zones, at our Jersey, Guernsey, Cayman Islands and Singapore offices, who will continue to provide round-the-clock support to our clients.

Due to the damage to the infrastructure of the BVI, our office in Tortola remains closed at this time.

Both the Registry of Corporate Affairs and BVI Financial Services Commission (FSC) are fully operational again. The online portal VIRRGIN which is operated by the FSC is fully accessible from outside of the BVI enabling Collas Crill to (among other things) file liquidations, obtain company searches and register and release charges. In addition to this, the Eastern Caribbean Supreme Court announced the temporary relocation of the Commercial Court to Castries in Saint Lucia and that hearings will commence on Monday 25 September.

If you have any queries or would like further information, please contact any of our BVI team below.
