## December 2021

Group Managing Partner <u>Jason Romer</u> is extensively quoted in the latest Reports Legal offshore report, an in-depth analysis of how the offshore market has fared this year.

Jason shares his thoughts on 2021 in terms of overall business performance and people priorities as well as looking at the types of work we have been engaged in, including corporate activity, key deals and disputes, and the critical importance of ESG.

Of performance, Jason notes: 'Our experiences mirror what you read in the legal press. Everybody panicked that revenues were going to drop and the courts were going to close, but that never happened... we're 17% up on where we were last year, costs are down and we continue to get busier.'
